

Appendix G- Arista's Deposition Designations

Arista's deposition designations, objections to Cisco's counter designations and Arista's counter-counter designations are attached hereto as Appendix G.

Regarding Cisco's objections to Arista's designations, Arista responds that Cisco has waived its objections to the form of the question to the extent that it did not assert objections at the time of the deposition. Arista objects to all Cisco's counter designations that are outside the scope of Arista's direct designations. With respect to certain witnesses and purported counterdesignations, Cisco made no good faith effort to designate proper counter designations. Whether this was done out of expediency, as a way of designating testimony that Cisco failed to designate by its deadline, and/or as a way to avoid the limitations of the hearsay rule and the proper use of a deposition at trial, Arista objects and submits that the entire counter-designation should be stricken in its entirety.

Arista further responds as follows:

For all 402 and 403 objections, Arista responds that the testimony is relevant and not unfairly prejudicial, confusing, misleading, cumulative, or causing undue delay or wasting time. Arista further responds that to the extent Cisco has objected as to Federal Rule of Evidence 602 for 30(b)(6) witnesses, Cisco's objection is unfounded under Fed. R. Civ. P. 30(b)(6). As to other Federal Rule of Evidence 602, 701, foundation, and speculation objections, Arista had laid the proper foundation, has shown that the witness has personal knowledge, and/or the testimony is rationally based on the witness's perception. To the extent that Cisco objected that testimony was a legal conclusion, the testimony was an admission or was otherwise proper under Fed. R. Civ. P. 30(b)(6). For 802 objections, the testimony is not hearsay or is an exception to hearsay under Federal Rules of Evidence 801, 803-805, and/or 807. To the extent that Cisco has 1002 objections, Arista responds that the testimony is permissible under Federal Rule of Evidence 1004 and/or 1007. For all other objections, Arista responds that the designated testimony does not waste time, does not harass the witness or cause undue embarrassment, and makes determining the truth more effective under Federal Rule of Evidence 611(a).

Arista provides the below key for the codes used in its objections to specific testimony.

| CODE | DESCRIPTION |
